

Matthews Paint
We are all about color!

Exceptional Paint Durability & Vibrant Color Applied Easily in Your Park

Brighten and protect your attractions while protecting the environment with Matthews Paint's benchmark MAP Ultra Low VOC paint system. This complete high-performance system features topcoats, clearcoats, primers, and cleaners that provide exceptional durability and vibrant, long-lasting color. With less than 50 g/L (0.42 lbs/gal) VOC, MAP Ultra Low VOC is AIM Compliant* and the perfect choice for your park's signage and structures. Plus, MAP Ultra Low VOC allows you to brush or roll in the park before your park opens and it dries before your guests arrive!

* Check with your local authorities for specific compliance ratings.

Complete MAP Ultra Low VOC Matthews Paint System

Brilliance in Color and Performance
For more than 85 years, Matthews Paint has manufactured the highest quality industrial coatings with over 90,000 color formulas available.

Durable and Flexible

Even in the most demanding environments that are prone to dramatic temperature swings, MAP Ultra Low VOC's extremely flexible film offers exceptional durability with 50% better impact resistance in direct and reverse impact testing. Plus MAP-LV's enhanced gloss retention, by 25% compared to conventional industrial acrylic polyurethanes, keeps your environment looking like new for years.

Environmentally Friendly

With less than 50 g/L or 0.42 lbs/gal VOC, MAP-LV Ultra Low VOC products are AIM* compliant and can be applied on-site in your park. MAP-LV meets and exceeds most LEED compliance levels for protecting the environment. *Check with your local authorities.

Brilliant Color

MAP Ultra Low VOC can be matched to all 90,000+ Matthews Paint color formulas, including the best known color systems such as Pantone, 3M and many more. From solids to metallics and pearls, the color options are limitless. With our extensive color selection, useful color tools and expert assistance, we'll make your park vibrant. Plus, our experts can match any special existing colors, fabricators standards or park standards.

Paint and Dry Fast Before Your Park Opens

With our fast dry times, your products will go through the shop quickly and you won't be waiting around for your paint to dry. Use our accelerator to get even faster dry times and paint multicolor projects more efficiently. Our brush and roll capability allows you to paint in the park in the morning and it will be dry before your park opens.

Wide Range of Gloss Levels

Full gloss, satin and matte finishes are available for our Ultra Low VOC paint. Need something in between? Additional gloss levels can be achieved by blending our Ultra Low VOC clears.

High Performance Clear Coats for Chlorine Resistance

Matthews Paint clear coats will keep your attractions looking vibrant and new while protecting against UV rays, impacts, abrasion, sand, salt, grit and harsh chemicals. Special clears are available to protect theming for dark rides.
